Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Claims 1, 8, 12-15 and 20-24 are allowed over prior art of record because the cited references either singly or combined do not disclose the claimed invention:

A roll-up portable valuables case holding a predetermined number of valuables including a security device, comprising:

a light responsive means installed in the case for detecting a reduction in light amount falling on the case;

a battery for energizing the light-responsive means upon control of a customized key;

an alarm system; and

control means operative connected to the light-responsive means for controlling the alarm to emit alarm signal upon reduction in the reduction of light amount falling on the light responsive means and independent of whether all of the valuables are disposed in the portable valuables case.

The underline limitations are critical since it shows the system of improvement.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
